9. Organizational Chart and Processes

10. **Student Feedback Mechanism**

At present NIBM has put in place a mechanism for collecting feedback from participants/students with the objective of improving academic standards. The Institute has designed a feedback format on the lines of those followed in best management institutes for obtaining feedback (anonymously) from the participants/students during and at the end of the programme/course. These feedback sheets are administered and collected by the Programme Officer/ Secretary and sealed and forwarded to a separate section in the Director's office for processing and storage. A team comprising of Director, Dean & Principal (PGDM) and two Deans of the Institute, i.e. Dean-Training and Dean-Research & Consultancy will analyze and the concerned faculty/teacher is informed about the responses of the participants/students. This team is also empowered to advise the faculty/teacher to bring about modifications in the design/administration/methodology, etc., for improvement of the programme/course. The policy approved by the Board of the Institute is in vogue which takes into account the feedback of the programme/course for faculty promotion in the Institute. It may be specifically mentioned that in case of PGDM, the aforementioned methodology covers assessment of mid-term feedback as well.

Faculty Performance

NIBM being an apex institution for research, education and training has put in place a very rigorous process of selection and promotion of faculty based on 'performance of faculty'. NIBM has board approved policy in force which is on par with those followed in best management institutions with due emphasis on 'quality' of teaching, research and training activities. Every year faculty submits a plan of activities for the ensuing year with details about teaching, training and education for approval to the Committee comprising the Director and Deans. This plan of activities, after discussion with the concerned faculty is finalized by the Committee. Along with this plan, a statement about the work done is also enclosed for evaluation. Based on the work-done, members of faculty are graded into Outstanding, Very Good, Good, Satisfactory and Poor with regard to annual performance, which forms the basis for eligibility for promotion. Needless to mention, promotion is a rigorous process and comprises stage one with the evaluation of research/training/teaching work of a faculty by external expert and interview before a panel of experts in the stage two.

11. **Grievance Redress Mechanism for Students**
