Message From The Event Coordinators

Prof Ateeque Shaikh
B.Tech., Fellow

Adhikosh is a platform for students to showcase their organising and leadership skills in the competitive world. The various events that are being organised will help to evaluate multiple skill sets of the participants. The Organising Team has very skilfully conceptualised events in a manner so as to ensure their linkage to real world business problems. We feel proud while also appreciate their hard work and wish them success in organising this event.

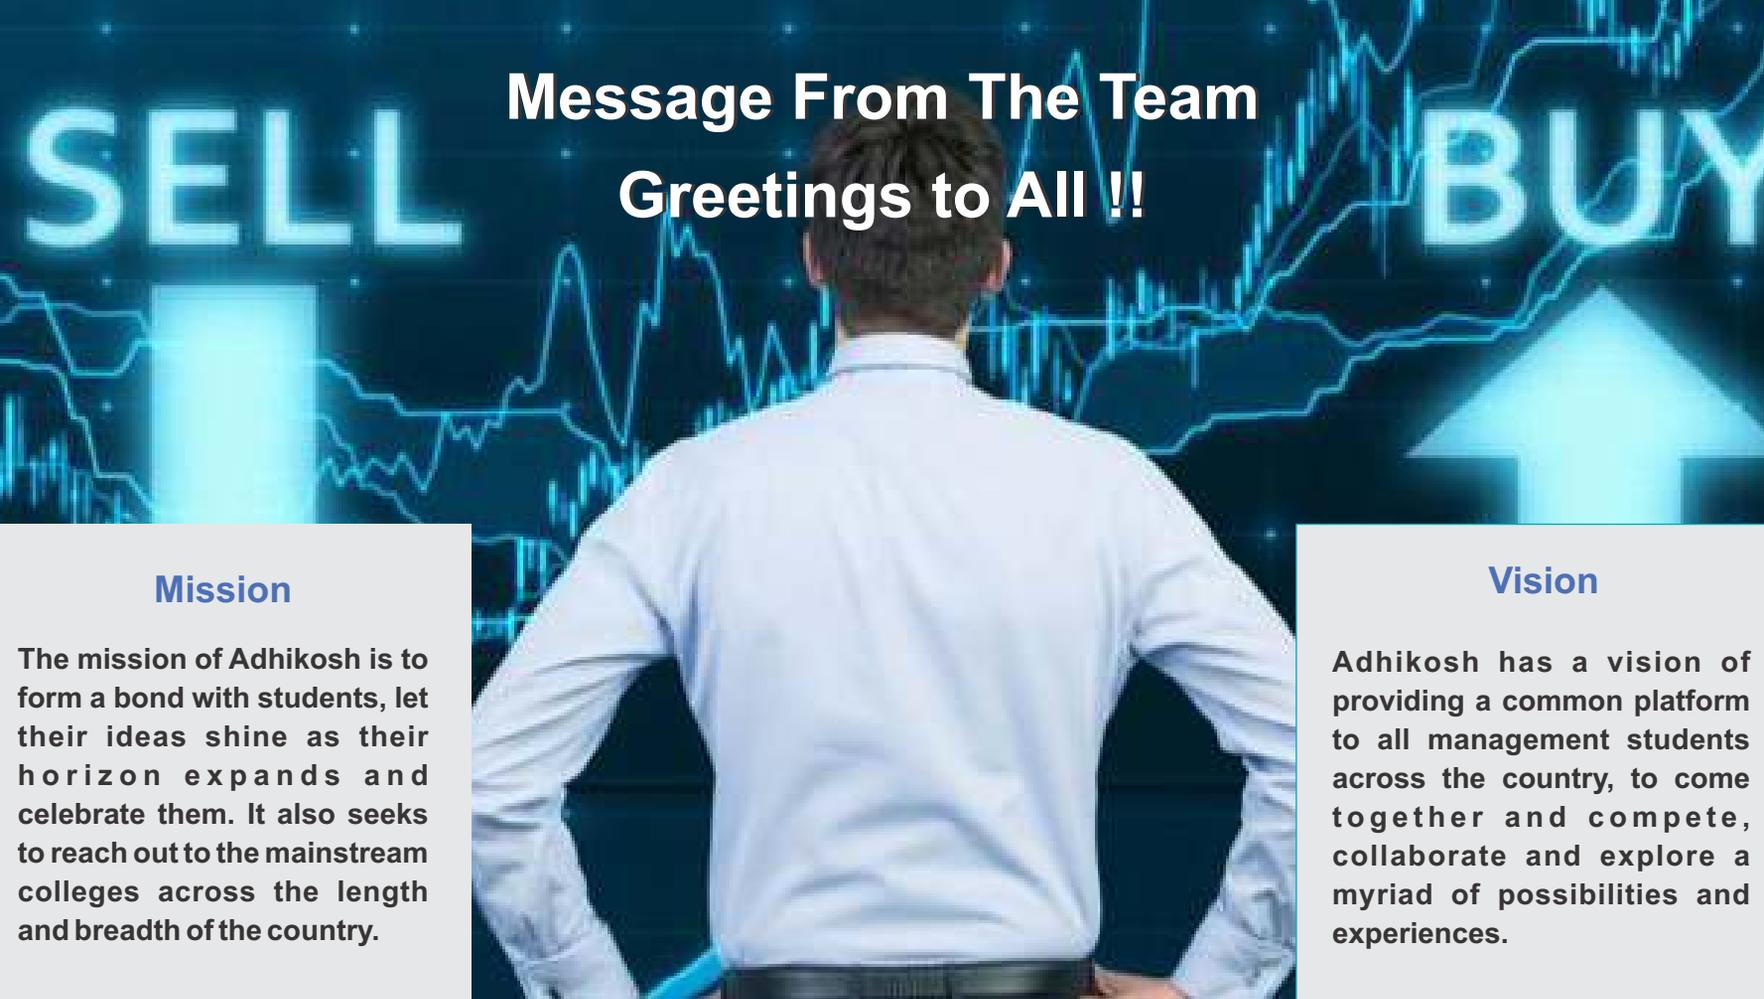

To inculcate innovative ideas the students of NIBM have organized an inter college competition "Adhikosh". The main purpose of this transparent interaction is to ignite independent thoughts in our existing socio-economic and financial system. It is not only the frequent repetitions or admonitions that students should look for, instead students' minds should know "whatever comes to you in the guise of truth that inquire into with all diligence out of the respect due to truth" – David Hume

Message From The Team

Greetings to All !!

Mission

The mission of Adhikosh is to form a bond with students, let their ideas shine as their horizon expands and celebrate them. It also seeks to reach out to the mainstream colleges across the length and breadth of the country.

Vision

Adhikosh has a vision of providing a common platform to all management students across the country, to come together and compete, collaborate and explore a myriad of possibilities and experiences.

Someone has rightly said, “Coming together is a beginning; moving together is progress; and working together is success!”

In the spirit of the above saying, the organising team of Adhikosh feels ecstatic to invite management students from across the country to be a part of this enthralling experience and showcase their multitudinous and inexhaustible skills and capabilities.

We feel immense pleasure to invite all interlocutors who are passionate about learning by experiencing, to participate in various competitions for a chance to win alluring prizes. So, get ready to have the experience of a lifetime and be a part of Adhikosh where learning is fun and rewarding!

See you soon!

The background of the slide is a collage of images. On the left, a student in a dark blazer is looking at a book in a library filled with bookshelves. In the center, two students are sitting at a wooden table, looking at papers. On the right, a group of five students in dark blazers are standing and talking in a courtyard with stone buildings.

Technical Events

AIB (All India Banks)

Are you good with what's happening in and around the industries? What about banking? If yes, then you are the one for AIB. Each team will be allotted a bank and be given two recent agendas. The teams have to discuss these agendas with respect to the banks given.

Discussion will be headed by individuals of home college assuming the roles of RBI Governor and Dy. Governor, who will provide motions. Seems fun, now it is up to you. Are you game?

What Next

In this fast-changing business environment, every second counts. Don't let the student in you die, the more you learn, the more you earn. This event is about cracking the next milestone. Bring your innovative ideas on the table. Be innovative to win exciting rewards.

Off The Cuff

Ever wanted to be a part of a live auction?

Yes, you read it right!

An exciting auction is on the way where you can use your intellect and knowledge of topics. Bid for the topics. The easier you chase, the more you lose. The higher you retain, the better you stand. Because what you retain is the maximum you can score on the topic you have to speak. Does this tickle the bidder inside you?!

Let's Build A Bank!

Have you ever thought of setting up a bank on your own? Sounds interesting right! Gear up for this exquisite event to see how creative you are and how creatively and strongly you can pitch and convince. However, the catch is that no bank can play along smooth, without a licence, vision, mission and can't escape from the eyes of the regulator. If you have the best positioning strategy and if you are able to communicate the same, Rejoice.. You have a good chance of winning!

Bid The Pip

If someone gave you stash of cash, what would you do with it? Would you put it in a bank? Or would you rather invest in stocks? Stocks pay good. But they're risky right? But hey, what about making use of some fundamental and technical analysis to take these decisions? So come let's play a game wherein calculated risk will be rewarded with good returns!

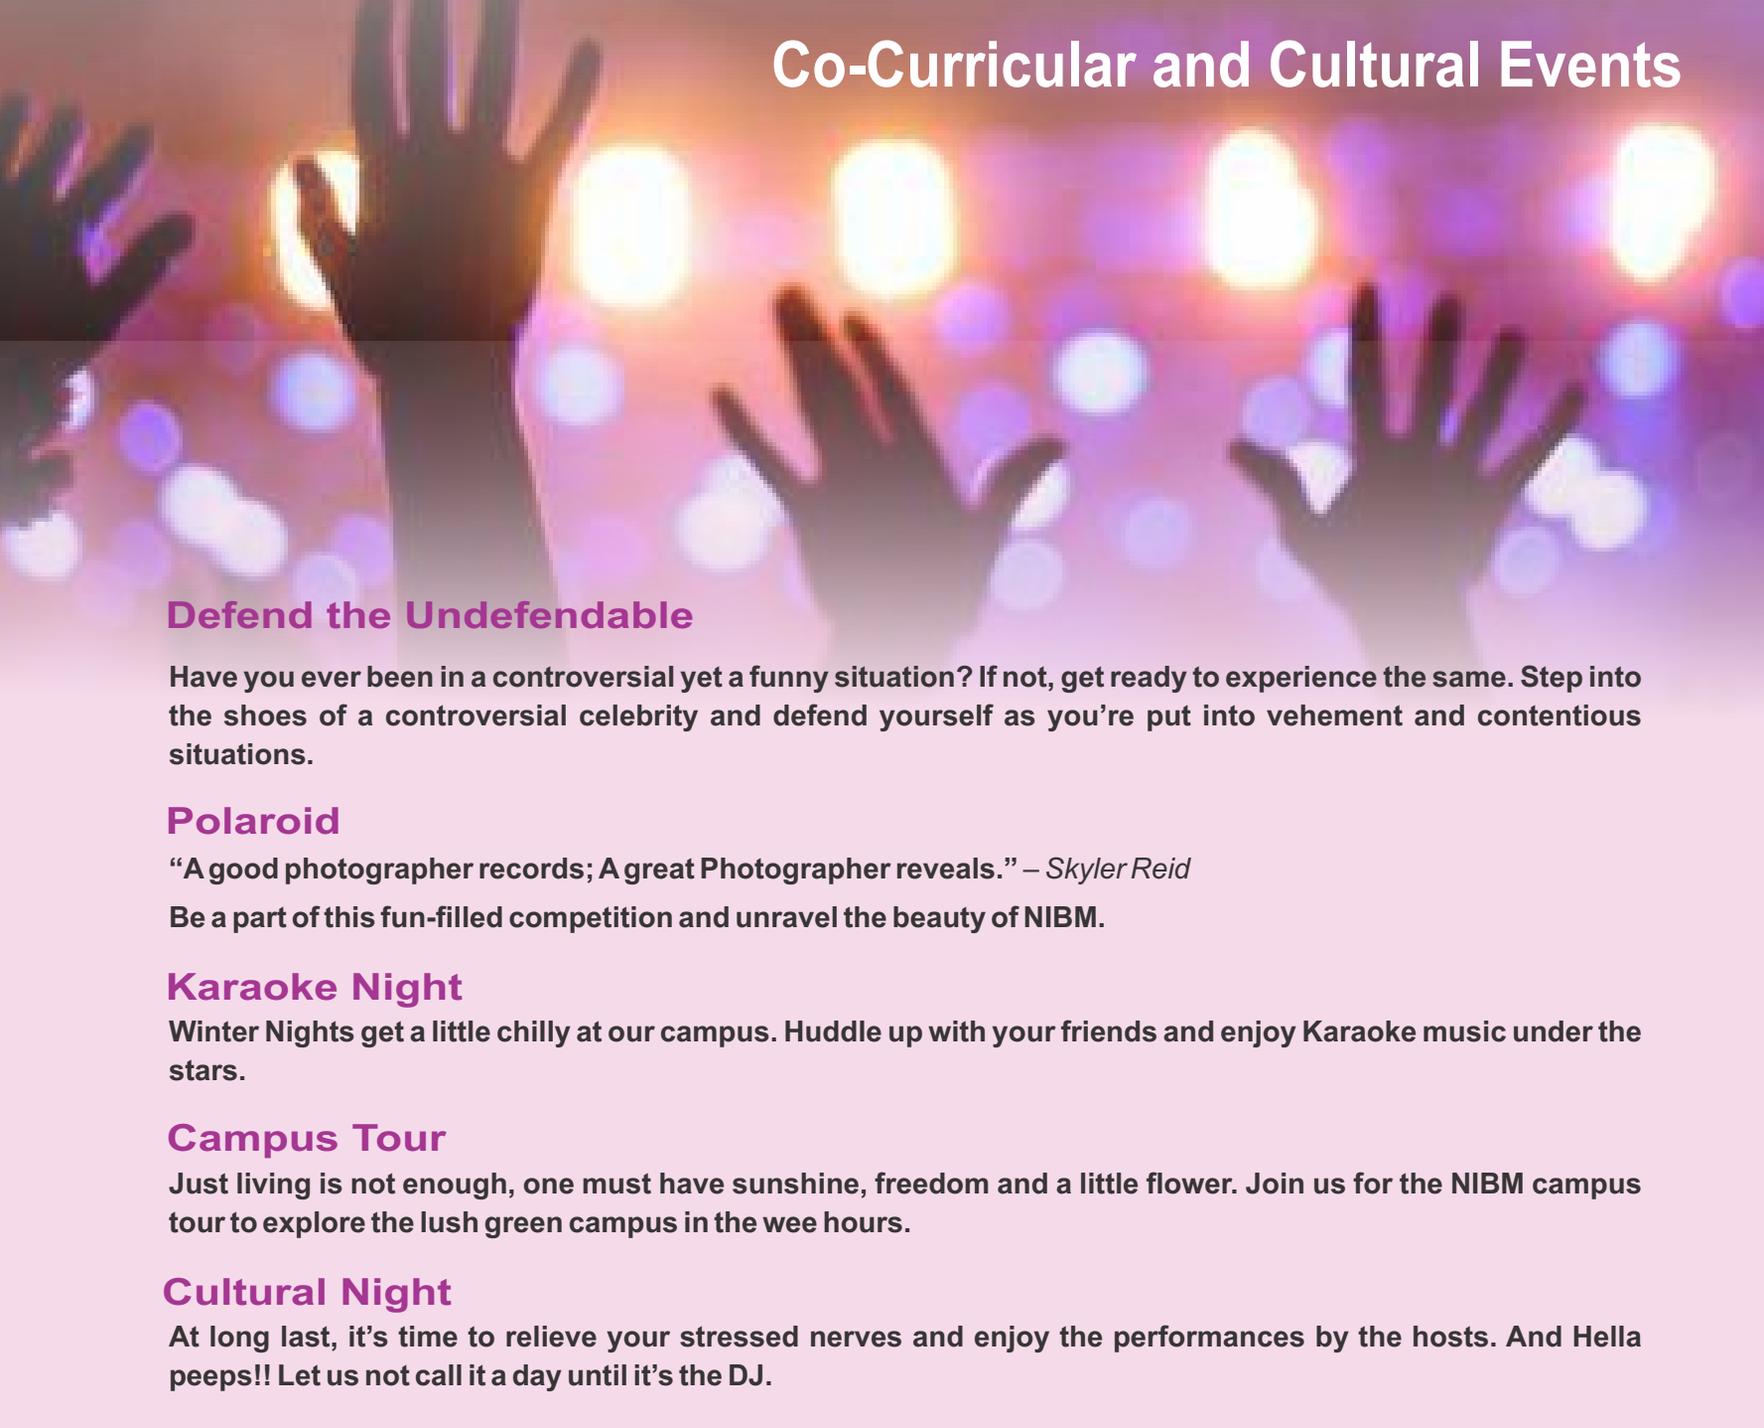

Pick One's Brain

Step by step you move in the quiz.

Just three steps and you ace the game!!

It's a faceoff with questions in all the rounds. First you have to Aim for a topic on the dart board. Then press the buzzer to answer in the next, followed by a bonus round.
